

"The strategy Jacobs developed to build a company aligned to sustainable, higher growth markets has proved its resilience during one of the most severe economic shocks in history. I'm proud of our 55,000 employees who continued to deliver mission critical innovative design solutions for our clients and communities around the world."

– Steve Demetriou, Jacobs Chair and CEO

*Engineering News-Record*, one of the industry's most authoritative publications, ranked Jacobs No. 1 in its list of *Top 500 Design Firms* for a fourth consecutive year. Widely considered the industry benchmark, the annual list ranks both publicly and privately held U.S. companies, based on revenue for design-specific services performed in the previous year.

2020 was a year like no other, but despite the many challenges and uncertainties, ENR's report shows that on the whole, design firms performed better than expected with the aggregate revenue for listed firms rising 1.48% to a record \$104.77 billion in 2020. Jacobs has held a top five spot in the Top 500 list since ENR's rankings began in 2003 and have held the No. 1 position for four consecutive years.

Some highlights from 2020 include working in partnership with the public and private sectors to support the retrofitting and design of COVID-19 vaccine manufacturing facilities; assessing and commissioning COVID-19 alternate care facilities; providing location-aware technology and automated intelligence for contact tracing; managing the design and construction of COVID-19 test facilities; supporting healthcare operations planning in the U.S., U.K., Australia and New Zealand; assisting with assessment and deployment of critical supplies (PPE and ventilators); and developing an innovative testing program to monitor COVID-19 spread in community wastewater streams.

## About Jacobs

At Jacobs, we're challenging today to reinvent tomorrow by solving the world's most critical problems for thriving cities, resilient environments, mission-critical outcomes, operational advancement, scientific discovery and cutting-edge manufacturing, turning abstract ideas into realities that transform the world for good. With \$14 billion in revenue and a talent force of approximately 55,000, Jacobs provides a full spectrum of professional services including consulting, technical, scientific and project delivery for the government and private sector. ### JACOBS' 2021 ENR SOURCEBOOK RANKINGS:

#### #1

- Aerospace
- Auto Plants
- Clean Air Compliance
- Chemical and Soil Remediation
- Data Centers
- Government Offices
- Hazardous Waste
- Industrial Process
- Manufacturing
- Marine & Port Facilities
- Mass Transit & Rail
- Nuclear Waste
- Pharmaceuticals
- Pulp & Paper
- Sanitary & Storm Sewers
- Semiconductors
- Sewer & Waste
- Site Assessment and Compliance
- Telecommunications
- Towers & Antennae
- Wastewater Treatment Plants

#### #2

- Airports
- Bridges
- Electronic Assembly
- Highways
- Transportation
- Water Treatment, Desalination Plants
- Water Transmission Lines & Aqueducts
- Wind Power

#### #3

- Co-Generation
- Entertainment
- General Building
- Healthcare
- Nuclear Plants
- Water Supply
